

## PERSONAL INFO

**Name:** Yusuf Akbaba

**Age:** 22

**Location:** Saint Petersburg/Russia

## SKILLS

I develop Full-Stack Websites for over 2 years but more dominant on Front-End.

### Skills:

1. Html (9/10) [2 years]
2. Css, Sass, Scss (9/10) [2 years]
3. JavaScript (7/10) [1.5 year]
4. Node.js (6/10) [6 months]
5. React.js (1/10) [1 month]

### Best Features of Me:

1. Pixel Perfect conversation. (i think i'm the best in the world)
2. Do the 1st very fast.
3. Careful on UI/UX issues.
4. Coding by considering SEO rules.
5. Fully responsive designs with all devices.

### Goals:

1. Become an expert of React. (main goal)
2. Develop mobile apps on React Native. (kind of website supporter apps)
3. Develop games for mobile and desktop platforms on Unity. (for hobby)

## EXPERIENCE

### 1. Narcade (09.2018 – 09.2019)

I have worked in this one of most important mobile game company in Turkey as a Software Developer. The best thing I do in this company is Info Transfer software. I've created a software. Thanks to this software, an employee can finish the job in 1 minute instead of 3 work days.

### 2. Global Ekspress (11.2020 – 02.2021)

I have worked in this C2C E-Commerce Marketplace as a Front-End Web Developer. I've designed lots of website elements. Sometimes from scratch, sometimes from PSD to HTML, CSS, JS.

### 3. Blacks Creative (02.2021 – 05.2021)

I have worked in this agency as a Front-End Web Developer. I designed a lot of web templates. My best achievement in this company is design an e-commerce web template in only a day.
